EXPERIENCE

Software Development Intern — Appsquadz Software Pvt. Ltd.

Tech Stack: Java, Servlets, HTML/CSS, JavaScript

- Contributed to backend development on a small team, personally handling 3–5 modules of a Java-based web application.
- Debugged and optimized backend processes, improving application performance and responsiveness.
- Helped track project timelines and flag delays, supporting on-time delivery and collaborating with the team on overall system stability.

PROJECTS

Online Java Compiler | [GitHub](#)

Tech Stack: Java, Java Servlets, Apache Tomcat, HTML, CSS, JavaScript, AJAX

- Developed a browser-based Java compiler using Java Servlets and Apache Tomcat, enabling users to write, compile, and execute Java programs directly from the browser without a local IDE.
- Integrated the Java compiler (javac) and JVM using ProcessBuilder with AJAX-based asynchronous communication to deliver real-time compilation output, runtime results, and error reporting.

CERTIFICATIONS & ACHIEVEMENTS

- Solved 200+ Data Structures & Algorithms problems on LeetCode
- Selected to present project in the **final round** of HackIndia Hackathon
- Host, HackIndia Hackathon
- Python Essentials Certification — Cisco
- NSS Core Member — Organized social campaigns at Teerthankar Mahaveer University
- Event Coordinator, IEEE Conference at TMU (600+ participants)
